

Tablet Reference Sheet - Icons

<p><b>General Apps</b> (some are pre-installed)</p>	<p><b>What is it for?</b></p>
	<p>Google Chrome/Safari– access to the Internet</p>
	<p>Photo gallery – view and (possibly) edit your photos and videos.</p>
	<p>App drawer – this is where all of your apps are stored. If you remove them from your main screens, they stay in this drawer unless you uninstall them.</p>
	<p>Google maps, iPad maps – handy map app that you can use as satellite navigation as well as finding useful things nearby when you are in a new town such as local garages, supermarkets and restaurants.</p>
	<p>YouTube – video site. Really good for finding "how to" videos, music and tv and lots of (fun) rubbish to pass the time! Turn the volume up and use FULL SCREEN.</p>
	<p>Google Play /App store – tap here to search for new and useful apps for your tablet. Check the price – lots of them are free but others will require a small payment.</p>
	<p>Google Hangouts, Skype, Messenger – this allows you to send instant messages and video-call any of your friends or family..</p>
	<p>Camera app – lets you take pictures and record video (to view in your gallery).</p>
	<p>Email: This is the app for accessing emails on your tablet. You can read and send emails with attachments from here. Email providers also have their own apps, but you can usually use one email app to combine different email providers.</p>
	<p>Music player – listen to music and audio from here.</p>
	<p>Calendar – an app that you can use as a diary. You can also set the calendar to remind you of appointments and attach maps and notes.</p>
	<p>Settings – covers a multitude of settings for your tablet including screen brightness, switching on and connecting/disconnecting from wifi, Bluetooth, accessibility options, checking storage, uninstalling apps ... and much more!</p>
