

## Downloading Zoom App - Panic Page

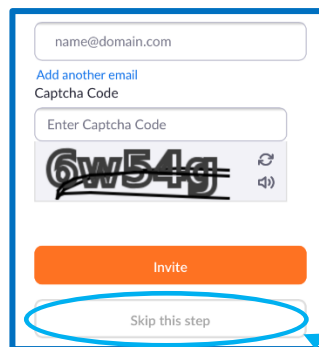

If things pop up on your screen, it can panic you. Take your time and read them. Think about what they are saying. You are in charge, and you can also change the settings at any time.

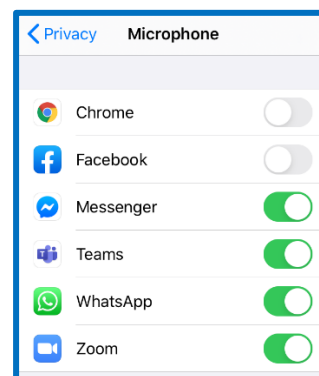

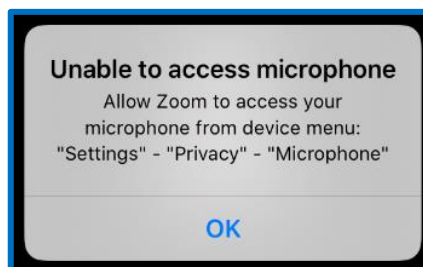

Do you want it to book meetings in?

Do you want it to beep?

If you don't want to email people, you can skip this bit

Follow instructions slowly  
1) Settings... 2) Privacy... 3) Microphone
